

Survey – Chisago County Water Plan Priorities

Chisago County is in the process of updating the Chisago County Water Plan. The Water Plan sets watershed priorities to obtain and use resources to protect, improve, and conserve the water resources of Chisago County, including lakes, rivers, wetlands and groundwater.

The first step is to decide on priorities. We would like to know what's important to you. Please take a few minutes to complete the following survey. Your suggestions will help us determine the priorities for the County. Thank you!

Name of Policy Team member providing survey:

Date of Survey:

Name of person taking survey:

Organization represented:

Do you have a formal plan in place for your water resources?

If so, may we have a copy?

Surface Water

Please name the lake(s), river(s), watershed(s) that are particularly important to your organization.

Of the water bodies you named please state:

Why they are important to you?

What you would like to see changed?

What you would like to see stay the same?

Over the next 10 years what projects or activities would you like to see take place?

What do you see as your roles and responsibilities to have this take place?

Ground Water

Is ground water important to your organization?

Why is it important to you?

What would you like to see changed?

What would you like to see stay the same?

Over the next 10 years what projects or activities would you like to see take place?

What do you see as your roles and responsibilities to have this take place?

What suggestions do you have for priorities in the County Water Plan?

What else would you like us to know?

Thank you!
